Nothing escapes it

| Central Vacuums

BREATHE CLEANER AIR IN YOUR HOME

A cleaner home is the foundation to healthier living. A Husky ducted vacuum will remove dust, allergens and other pollutants away from the living area more efficiently and with less noise than the competing brands or regular portable vacuums. The Husky hybrid filtration system will remove 99.97 % of particles 0.3 µm or larger.

ULTRAQUIET VACUUM UNIT

Peaceful cleaning with the new low noise emission technology thru-flow motors.

CONVENIENT INTELLIGENT MODULE

Practical status indicator with LED and integrated instructions. Soft start/stop functionality for increased motor durability.

MACHINE WASHABLE ANTIBACTERIAL PERMANENT FILTER

New generation of antibacterial treatment that stops the growth of bacteria and prevents the spreading of germs that cause odours on the permanent filter. The SILPURE treatment is natural, non-toxic and ecological.

LARGE CAPACITY DUST CONTAINER

Extra-large ultra-light brushed aluminum canister. Equipped with ergonomic handles and integrated latches for ease of operation.

CONVERTIBLE HYBRID FILTRATION

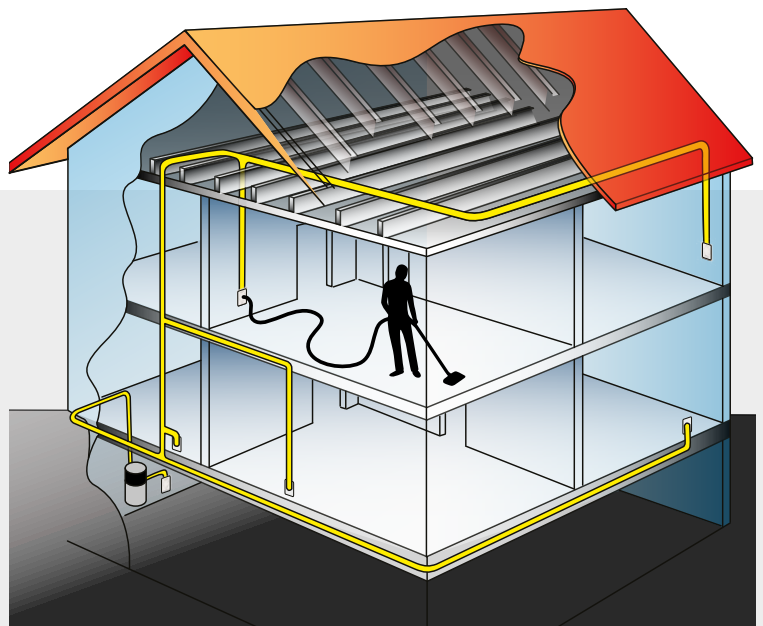

Can be used with or without a filtration bag. When used with a Husky disposable filtration bag, it performs a HEPA-type filtration for unparalleled air quality.

POWERFUL & EFFICIENT VACUUMING

Husky ducted vacuums are up to 5 times more powerful than a portable vacuum cleaner. This means you save energy by cleaning more efficiently in less time!

DURABLE HIGH-END FINISH

Husky vacuums are made of recycled steel and aluminum, two of the most recycled materials in the world, hence a reduced impact on the environment. This high-end finish will dissipate heat and prevent dust accumulation caused by static.

We have been designing and manufacturing our vacuums in Canada for more than 50 years. This is what gives us the opportunity to offer you guaranteed high quality and high performance products. Join the hundreds of thousand Husky owners in the world and discover how a Husky ducted vacuum system makes a difference for you and your environment.

CLEANING SETS

PREMIUM SET HUS001

Available in 10.6 Metre length

- Designer Handle with On/Off switch
